To "Play" or to "Do"

Have you ever wondered why we say certain things certain ways? I am going to mow the lawn. I am going to wash the dishes. These are the mundane chores that we "Do". But, if we "play" golf, or "play" tennis, or even "play" records (remember those?) we are doing something that we are "playing" to do. Playing to me was always a very enjoyable experience and one where we tried our hardest to win, or that we opened our creative side to explore: Let's play soldiers, or let's play doctor (I really liked that one!).

So, why don't we play sewing? Or, why don't we play quilting? I think that it's time for all the "Players" out there to change our verbal system of doing the things we love to do. Don't "sew" anymore, don't "quilt" or "embroider" anymore. Play quilting, play sewing, and play embroidery; it's amazing how your mind-set will change. When we play we create and we have fun.

I've always considered SewVac Ltd. to be the Playground for all of you who love your hobby and your craft. Take our classes, try out one or two of the sewing clubs and you'll be like a kid in the park! I can't think of a better way to live your life in a way that fulfills your inner needs. Play your piano, play your sewing machine - do it well!

We have added another session since the response has been so great. The instructor this year is Micki, who is a 4th grade teacher and she says "I've found that it's important to give the kids the tools that they need so they can be successful at what they want to do or be. It seems only natural that my teaching habit would go into the craft that gives me so much pleasure. How else will they be able to make their special look on a reasonable budget?"

All participants need to have the desire to learn how to sew with machines and be able to follow safety rules with equipment. They should be able to thread their machine with little help. Projects will include easy leveled sewing and crafting that will give skills need for successful sewing.
