

Supply List for
Nuts and Bolts of Quilting
Week 1

During the first class meeting the teacher will be discussing the supplies needed for the class and you will have the opportunity to practice rotary cutting.

Help will be available if you choose to buy your fabrics at Sew Vac.

Please bring a notebook and pen. If you own a rotary cutter, rotary ruler, and/or unwanted woven scrap fabric (at least $\frac{1}{4}$ yard from selvedge to selvedge) please bring them to practice rotary cutter. We will have loaner cutters, rulers and mats, and some fabric scraps for this first session only for students who do not have any.

Students may find it helpful to have a binder or folder to store the handouts.
